

Golden
Placement Services, LLC

Senior Housing & Transition Specialist

“Finding an appropriate adult care home for a parent is probably one of the most difficult tasks that a family member will encounter. I could not imagine getting through his ordeal without the competent assistance of Golden Placement Services.”

“I LOVE that the communication was superb, and that you were always available for questions and feedback.”

“I highly recommend Golden Placement Services to anyone who is considering placement in a care facility. You can be confident that their caring professionals will guide you through one of life’s most difficult tasks.”

“GPS staff also visited my mother before and after the move and always called me to see how things were going to offer her support and empathy. I recommend this service whole heartedly.”

“I feel like a burden has been lifted.”

“Today, because I found Golden Placement Services, Mom lives with a family, just like she wanted.”

“The staff at Golden Placement Services really had a good understanding of what type of home Mom would feel comfortable with and helped us confirm our feeling an adult care home would be our best choice. They did very thorough background checks and the homes they suggested were all fantastic and within our budget. The “golden girls” are very personable; it felt very comfortable working with them.”

“She is kind, courteous and cares deeply about helping people in their time of need. She went the “extra mile” in helping me with other things, such as legal aid referral.”

“Thanks to GPS’s knowledge and experience, we were able to make a wonderful selection that met our mother’s needs and financial situation. We will forever be grateful to Golden Placement services for their invaluable assistance.”

“Your respectful, efficient, and no-nonsense approach to finding an appropriate place for Auntie was such a relief.”

"She made contacts ahead so that the home administrators or marketing staff knew we were coming and something about our mother's needs. She stayed with us so that if we did not seek the necessary information, she was there to guide and assist us. In addition, she made follow-up phone calls to me making sure I had no further questions. My family is especially grateful to the sensitivity, professionalism and care that she shared with us as we made a very emotional decision."

"I am sure that there are many others in the same circumstances as my family who would benefit from the expertise and the services of Golden Placement Services. In my opinion, do not hesitate to refer them to them."

"I personally enjoyed working with you. I felt like you had all our best interests at heart and somehow became a friend in just a few weeks. I felt we tackled a very complicated emotional process in a minimum amount of time. All I can say is thank you, you were absolutely fantastic."

"GPS accompanied us, at our request, to tour the homes and helped us interview the caretakers and evaluate each choice in terms of our mother's needs and comfort. We found a lovely room in a home where our mother received the attention and care she needed until her death a few months later."

"You took control of our situation and went right to work in a dynamic filtering of the providers who could and those who could not provide proper care for my wife, Polly. You knew where to look and whom to see, in a process that might have taken days to achieve and could have had a costly result, both in finances and in emotion. You were tireless in pursuing the resources that were available to us in today's market, coming up with a perfect match for our needs."

"I watched you talk to her giving her your full attention, observed you take genuine interest in her concerns and watched you give her professional information in a practical personal way that built a trusting relationship."

"It was a first experience for me and it has been a very good one. I highly recommend Golden Placement Services."

"GPS was discreet, compassionate and professional. When we called with questions, she promptly returned our phone calls and provided us with answers. Golden Placement Services worked quickly and efficiently to meet our needs. I would recommend this agency to anyone needing placement assistance for a loved one."
